

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

The program outcomes, program specific outcomes and course outcomes are attained on an informal basis. They are discussed in reference to the students placed or the students went for the higher education courses.

The Institution does not have any mechanism to evaluate them. Through the Transfer Certificate, the Institution can keep a track record of the students going for higher education. This helps the Institution understand to some extent the outcomes of a certain course or program.

Through Alumni Association too, the Institution learns of the activities and professions the alumni involved in. However, the employability gap is considerably high and many students having excellent academic career also fail to get employed.

Farming is major activity of the area and the areas surrounding the place. Therefore, to keep a track of the program outcome or the course outcome is quite difficult. Around 50% of the girl students do not go for any employment after their study is over. They prefer or are forced to lead the life of a housewife.

There are two big GIDCs (Gujarat Industrial Development Corporation) namely Pardi GIDC and Vapi GIDC that can offer employment to the students. The programs and courses offered by the Institution are open-ended and most of the students go for further studies after graduation. Many involve in farming activities or their ancestral trades. In such cases, it becomes difficult to measure the program or the course outcomes for the Institution.

5.2.2 Student progression to higher education in percentage during the year

Year	Name of student enrolling into higher education	Number of students enrolling into higher education	Programme graduated from	Department graduated from	Name of institution joined	Name of Programme admitted to
